PASSED BY THE SENATE

LODGE PHILIPPINE GOVERNMENT
BILL HAS EIGHTEEN VOTES
TO SPARE.

A DEBATE OF SEVEN WEEKS

Three Republicans Go on Record
Against and One Democrat Favors
the Measure—Senator From Massa-
chusetts the Recipient of Many Con-
gratulations on the Successful Ter-
mination of His Efforts.

Washington, June 4.—Shortly after 1 o'clock the senate passed the Lodge Philippine government bill by a vote of 48 to 30. Three Republicans Messrs. Hoar of Massachusetts, Mason of Illinois and Wellington of Maryland voted against the measure, and one Democrat, Mr. McLaurin of South Carolina, voted for it. All amendments offered by the minority were rejected. The debate on the measure has been in progress seven weeks and two days. Mr. Lodge of Massachusetts, chairman of the Philippine committee, who has been unremitting in his advocacy of the measure, was the recipient of many cordial congratulations on his successful conduct of the bill.

The bill, as passed by the senate, approves the action of the president in creating the Philippine commission and the offices of civil governor and vice governor of the islands, and authorizes the governor and vice governor to exercise the powers of government as directed by executive order. Future appointments of the governor or vice governor shall be made by the president, with the advice and consent of the senate.

The "bill of rights" of the United States Constitution are applied to the Philippine islands with the exception of the right to bear arms and the right to a trial by jury. The supreme court and other courts of the islands shall exercise jurisdiction as heretofore provided by the Philippine commission and the justices of the supreme court shall be appointed by the president and the senate; the others by the civil governor and the commission.

The action of the president of the United States in levying and collecting taxes is approved.

All the inhabitants of the Philippine islands are deemed to be citizens of the Philippine islands and entitled to the

Protection of the United States.

When the insurrection in the islands shall have been subdued a careful census of the islands shall be taken, and after such census the governor of the islands shall make a full report to the president and make recommendations as to future government.

Meantime the Philippine commission is authorized to establish municipal and provincial governments, with popular representative government, so far and as fast as the communities are capable and fit for the same. The Philippine commission being authorized to determine the qualifications of the electors. The president is authorized to regulate the commercial intercourse with the archipelago in the interest of the general welfare.

The government of the Philippines is authorized to provide for the needs of commerce by improving harbors and navigable waters, providing warehouses, lighthouses, signal stations, etc.

All land in the Philippines is placed under the control of the Philippine commission for the benefit of the inhabitants of the islands, except such as may be needed for the use of the United States.

The government of the Philippines shall make rules and regulations for the disposition of the public lands, but the regulations shall not go into effect until approved by the president and congress; provided that a single homestead entry shall not exceed forty acres, and also provided that no such land shall be leased, let or devised to any corporation until a law regulating the disposition of the public lands shall be enacted. No corporation shall be authorized to engage in agriculture unless provision shall have been made therefor.

Authorized to Acquire Friar Lands.

The bill provides at length how claims, both agricultural and mineral, shall be located, and the Philippine commission is authorized to establish a mining bureau. The government of the Philippine islands is authorized to acquire and convey title to real and personal property and to acquire real estate for public uses by the right of eminent domain. The Philippine commission is authorized to acquire the friar lands and is empowered to issue bonds to pay for them. These lands, once acquired, shall be a part of the domain of the United States and may be disposed of as such.

Upon the supreme court of the United States is conferred the right to review the decisions of the supreme court of the Philippines.

Municipalities are authorized to issue bonds for municipal improvements, with the consent of the president and congress, the entire indebtedness of any municipality not to exceed 5 per cent of the assessed valuation of property. It is provided that the bonds shall be gold bonds and shall be free from any taxation. A sinking fund for the payment of the bonds and interest thereon must be provided by the municipality issuing

them. The city of Manila is authorized to incur indebtedness, in gold bonds, to an amount not exceeding \$4,000,000 to pay for a sewer system and water supply.

The government of the Philippines is authorized to grant franchises and concessions, including the right of eminent domain, for the construction of works of public utility, provided that no private property shall be taken without just compensation; that no franchise shall be granted to any corporation that shall not be subject to review by congress; and that all lands

granted shall revert, at the expiration of the concession, to the governments by which they were made. No corporation shall be authorized to conduct the business of

Dying and Selling Real Estate, and the amount of real estate which shall be held by any corporation shall be determined by congress.

A mint is to be established in Manila and coins authorized may be coined at the mint, the coinage laws of the United States being extended to the islands. The Philippine government is authorized to coin a silver dollar containing 416 grains of standard silver, to be a coin of the Philippine islands, the denomination of the coin to be expressed in English, Filipino and Chinese characters. Silver brought to the Manila mint shall be coined for the benefit of the depositor, the mint charge being a cent for each dollar coined. The same coin may be made at the mint in San Francisco upon the request of the Philippine government, with the approval of the secretary of the treasury, provided that such deposits at the San Francisco mint shall be confined to silver produced in the United States. Subsidiary coins of silver also may be coined at the Manila mint, under restrictions similar to those regulating the coinage of the dollar. The dollar shall be legal tender in the Philippines for public and private debts, except where otherwise stipulated. Silver certificates may be issued for deposits of Filipino dollars in sums of \$20 or more. Other minor subsidiary coins are provided for.

The bill also continues the division of insular affairs of the war department, the chief of which shall have the rank of colonel of the United States army.

After the passage of the Philippine bill the Nicaragua canal bill was made the unfinished business.

DEPARTMENT OF COMMERCE.

House Committee Decides to Report the Bill Creating It.

Washington, June 4.—The house committee on commerce took action which insures a favorable report on the Nelson bill creating a department of commerce. The bill has been pending for some time and Mr. Stewart (N. J.) tested the sentiment of the committee by moving that there was no present demand for the measure. Mr. Mann (Ill.) offered an amendment favorable to consideration and report of the bill. The amendment carried, 7 to 4, and the committee then proceeded to perfect the measure.

As it came from the senate it provided for a department of commerce and labor. By a vote of 8 to 4 the provisions as to the labor branch were struck out, limiting the new department to commerce. The details of the measure were somewhat altered so as to include other government bureaus as a means of preventing duplication of statistical and other work.

EXPENSES IN CUBA.

House Military Committee Refuses to Make Investigation.

Washington, June 4.—The house committee on military affairs voted to table the resolutions of inquiry addressed to the war department relative to expenditures in Cuba. The action was on party lines and the Democrats gave notice of filing minority reports. One of the resolutions, by Mr. Goldfogle (N. Y.), called for detailed information on expenditures, etc., during the American administration in Cuba; another, by Mr. Barrett (Ga.), asked for information relative to salaries, compensation, etc., paid to Governor General Wood. A third resolution, by Mr. Slayden (Tex.), asked for a list of officers who had been retired soon after promotion. It was stated that the action in tabling the resolutions was because they were looked upon as an indirect criticism of the administration's course in Cuba.

MEANING OF "JUST CAUSE."

President Explains Section Eight of the Civil Service Rules.

Washington, June 4.—The president has issued a declaration of the meaning of section 8 of the civil service rules relating to the procedure in removals from office in the government service. The declaration announces that to prevent all misunderstanding and improper constructions of that section, the term "just cause," as used therein, is to mean any cause other than one merely political or religious, which will promote the efficiency of the service and that nothing in the rules shall be construed to require the examination of witnesses, or any trial, or any hearing, except in the discretion of the officer making the removal. The civil service commission has made a similar interpretation.

Origin of Dunning.

During the reign of Henry VIII. there lived in Lincoln, England, a famous balliff named Joe Dun. Joseph was very clever in the management of his business and so successful in annoying those who refused the payment of an account with which he had been entrusted that "to set Dun on him" or "to Dun him" became common advice to the owner of a bad debt. To this personage we owe what to not a few people is the most disagreeable word in the language.

CHICAGO RIOTERS GIVE BLUE COATS A TOUCH OF STRENUOUS LIFE.

HAVE A VERY LIVELY DAY

From Early Dawn They Are in Conflict

With Trouble Makers—Over a Score

on Both Sides Are Injured and Two

May Die—Thirteen Hundred Drivers

From Department Stores Are Also

on Strike.

Chicago, June 4.—Chicago's police were given a strenuous life during the day by the striking packing house teamsters. From daylight the bluecoats were kept busy dispersing trouble makers, who congregated along the streets and in every conceivable manner placed obstacles in the way of the meat dealers who endeavored to move their supply wagons with non-union drivers. In spite of the striking teamsters and their friends, thirty-three wagon loads of meat were delivered from the stock yards to downtown stations. Before the task was accomplished, however, a score of policemen and rioters had been injured and fully fifty persons had been placed under arrest. Several of the injured were in such a serious condition that they were taken to hospitals. Two of the injured may die.

When the procession of wagons left the packing district they were guarded by a heavy detail of police. As soon as the wagons emerged at the entrance of the yards fully 500 enraged strike sympathizers made a rush to overturn the conveyances.

The policemen drew clubs, and after a hard struggle, succeeded in scattering the mob. A fresh start was made, but before the wagons reached the downtown district the mob, augmented by hundreds of sympathizers, made another attack. In the fight that followed revolvers were drawn. No person was shot, the police instead using their clubs indiscriminately, and a dozen or more persons were hurt before the march could be resumed. When the central portion of the city was reached the clashes between the police and the crowd became numerous. Street car traffic was an impossibility and it was necessary for several squads of police to charge the crowds with batons before the wagons had reached the various downtown houses.

To add to the burdens of the police department 1,300 drivers and their helpers employed by the State street general retail merchandise department stores went on a strike. An attempt was made to deliver "department store" goods in the town with non-union drivers under police protection, but so much disorder developed that the attempt proved futile. Before the project was abandoned several rioters were hurt and many arrests had been made.

QUITE A NUMBER QUIT.

More Engineers, Firemen and Pumpmen Join the Strikers.

Wilkesbarre, Pa., June 4.—There were no developments or incidents of special mention in the anthracite coal miners' strike during the day. The mine workers tried hard to bring out additional engineers, firemen and pump runners, and the companies were equally earnest in their efforts to hold the employees that have been loyal to them. The union succeeded in getting out quite a number of men and the labor leaders assert that they are satisfied with the day's work. One

or two corners were compelled to shut down their pumps because of a lack of men, but in all other cases the operators were able to fill the vacancies by drawing on their reserve forces of office and other employees. The mine owners claim that thus far they have employed a very few nonunion men and have plenty of workers to draw on.

The entire coal belt remains comparatively quiet, although disturbances of a minor nature are becoming more frequent. These affairs are in the nature of demonstrations ranging in numbers from about a dozen persons up to about a hundred. At Miners Mills men and women gathered on the street corners and hooted the men that came from the mines to go to their homes. At Plymouth, also, there was a small demonstration against those still working at the engines and pumps in the collieries there. About a hundred men, women and children followed the workers to their homes, calling them opprobrious names all along the way. Many of the workers who go to their homes are accompanied by coal and iron policemen. The latter have been cautioned not to notice the actions of the crowds unless they attempt to do the men bodily harm.

May Strike Against Soft Coal.

New York, June 4.—An important meeting of the stationary engineers and firemen of New York city was held at which was earnestly discussed the advisability of ordering a strike rather than continue the use of soft coal. The result of such a strike would be not only to close all factories, but to stop the elevator service of hundreds of sky scraper office buildings.

Severe Forest Fires in Arizona.

Tucson, Ariz., June 4.—Forest fires continue unabated in the Huachuca county mountains. Hundreds of thousands of feet of lumber have been destroyed in the last four days. A large force of men has left Tombstone to fight the flames back from the Huachuca watershed, which supplies the town of Tombstone with water.

Work of the Supreme Court.

Washington, June 4.—During the term of the United States supreme court, which closed Monday, 375 cases were disposed of. There were left on the docket 343 cases, but of these 19 have been argued and submitted.

NEXT WINTER'S MANEUVERS.

Two Great Squadrons to Gather Off Porto Rico.

Washington, June 4.—Secretary Moody has laid before the president and his cabinet plans for the grandest set of naval maneuvers ever undertaken by the United States government. They are to be held next winter and are expected to prove of the greatest value in maintaining the steady development which has characterized the United States navy since the beginning of the Spanish war.

The central project is the assembling of three great squadrons of fleets, the North Atlantic, the South Atlantic and the European squadron, at or near Culebra island, on the east coast of Porto Rico, about Dec. 15 next. The fleets will work out two or three problems.

Was in Love With His Victim's Wife.

Vancouver, B. C., June 4.—Louis Pequette was hanged in the jail yard at Kamloops, B. C., for the shooting of Alfred Legree. Both murderer and victim were French-Canadians. Pequette was in love with the young English wife of Legree. One night under the influence of liquor he called at Legree's house and while the man and his wife were engaged in making up a bed for him he shot the husband dead with a rifle.

Call It Unconditional Surrender.

Berlin, June 4.—Referring to the terms of peace in South Africa the German newspapers express great disappointment and say they amount practically to the unconditional surrender of the Boers.

ON THE DIAMOND.

Brainerd 9; Globe Trotters 8.

The above tells the tale of yesterday afternoon's game between the much heralded aggregation known as the Globe Trotters and the local team at the Brainerd Athletic park. The game was a good one but the attendance was very small. Tache was in the box for the Brainerd team and he made a good showing. He is certainly a comer and will in a short time be able to hold his own with any of the teams in this neck of the woods. He is a cool-headed, cautious pitcher and did good work throughout the game. Killehan was in the box for the Globe Trotters and he was hit quite hard. All of the boys made some good two base hits and it was a feature that made the game interesting. It looked as though Brainerd would lose the game in the ninth. The score was 7 to 7 up to the first of the ninth. The Globe Trotters scored in this inning just once and it made the score 8 to 7 in their favor. Brainerd, however, went them one better and made two scores with but one man out. Howe, who had his batting clothes on, laced out a peach in this inning and this started the ball a rolling.

Hitting was free on both sides. Fourteen hits were made off Tache and ten off Killehan. For the Globe Trotters Bennett got 2, Hansel 1, Ryan 1, Ahlers 2, Foster 3, Pierce 2, Kilroy 1 and Hurston 1. For Brainerd Flynn got 1, Scanter 1, Williams 1, Howe 3, Merrill 1, Spencer 1, Finn 1 and Tache 1.

The St. Cloud Journal-Press states that the requisite number required for the excursion to this city for next Sunday has about been secured and they will be here strong. The game between the team of that city and the locals on that day will be a hummer and there should be a big attendance.

The Solemn Quaker.

At the funeral of a lawyer of state reputation who lived and practiced in a town not far from Philadelphia and who was known among his friends thereabout as an unbeliever an eminent gentleman from Philadelphia reached the house after the minister had begun the sermon. Not knowing how far the services had progressed, he accosted a well known Quaker of the town, who was a friend of the deceased and who was noted for his great sense of humor, and, leaning over his shoulder, asked in a whisper:

"What part of the services have they reached?"

To which the Quaker, without a smile, replied:

"Just opened for the defense."—Philadelphia Times.

A Wasted Compliment.

Lily—You don't mean to say you have broken with Fred? Why? I heard him say only yesterday there wasn't another girl in the world like you.

Minnie—That's just it; much as to say I'm a freak. I'll never speak to him again.—Boston Transcript.

Classified.

Heien—What an old crank old Wrinkles is for a man who is reported as being so wise!

Maud—Yes, a sort of cross wise.—Yonkers Herald.

If you make a mistake, do not dwell upon it. Take note of the reason of it, and endeavor to profit by its contained lesson.

The Hermit Crab.

Gently crack the shell of the whelk, for you will find it almost impossible to extract the occupant alive otherwise, and you will see what you may be pardoned for supposing a miniature lobster, but which in reality belongs to another distinct species—namely, the hermit crab, Pagurus bernhardus. Whether he has obtained occupancy by force of arms or merely through decease of the original tenant is a moot point, but the first supposition is highly probable, as he is a most belligerent little customer.

An amusing scene may be witnessed by placing several hermit crabs deprived of their shells in an ordinary soup plate, with a little sea water and some empty shells—fewer shells than crabs. The fighting and struggling to secure houses is ludicrous in the extreme. One may be seen almost successful in mooring himself within a shell, which, by the way, is effected by means of his shelly plates at the extremity of his soft and twisted tail, when another seizes him by the nape of the neck, as it were, and he is dragged reluctantly forth. The evictor still holds him struggling at claws' length, and not until he himself is safely ensconced does he relinquish his grasp.—Chambers' Journal

The Belief In a Devil.

A maidservant belonging to one of the women's colleges had been out with her lover without leave from her mistress and was returning late along my road, at the top of which lived the lamented Professor Nettleship. Now, the latter had a large yellow dog that took the usual canine delight in seeing cats scatter and flee, and the better to pounce on them when they were stealthily crossing the street, he would perch himself on the top of the professor's garden wall, surrounded and half hidden in the foliage. As the truant maidservant passed beneath him he caught sight of a cat in the middle of the road and, making a spring at it, collided with her and knocked her down. She picked herself up and ran screaming home, almost mad with terror, because, as she said, the devil had jumped on her back and thrown her down.—International Monthly.

Have Courage.

You must have courage, my boy. No matter what band of circumstances array themselves against you, if your purpose is right you will succeed. Life is a beautiful thing. The chance to fight is a great blessing. No matter how hard the situation may seem, keep on doing right, bravely face the future, set your standard high, work and wait, be patient and thankful, and you will win. You may never be rich as the world goes—not rich in money or rich in power—but you may be rich in the knowledge of the truth that you have made the best of your chance to be a man. Don't set your standard by the men who have achieved great wealth. That is nothing compared to the riches that belong to him who has struggled to enlarge and ennoble the circle of life in which he is cast.—Schoolmaster.

Fire Superstitions.

"If a fire does not burn well," says the old household superstition, "and you want it to draw, you should set the poker across the top bar of the grate." This is supposed to placate the gnomes, whom it was formerly believed were very jealous of the robbery of their underground country of its coal treasures and were very apt to take their vengeance out in preventing the fire from burning. It was the mystic form of the cross thus made which was supposed to drive them away. Nevertheless it would not do to use the shovel in this charm or the fire would be sure to go out.

An Adroit Answer.

The celebrated physician Zimmerman attended Frederick the Great in his last illness. One day, as the story is recorded in "Said For the Social," the king said to him:

"You have, I presume, helped many a man into another world."

This was rather an unexpected thrust for the doctor, but the dose he gave the king in return was a judicious mixture of truth and flattery:

"Not so many as your majesty nor with so much honor to myself."

A Man and His Heart.

Once upon a time there was a rich old man who had a heart so weak that its faint beatings could hardly be heard; yet, in the metaphor of our time, that same heart was filled with love for a fair lady.

The lady heard of her wooer's physical and financial condition and looked upon his suit with extreme favor. The result was that they were married.

Moral.—Faint heart sometimes wins fair lady.—New York Herald.

Advice.

"What would you say," began the voluble prophet of woe, "if I were to tell you that in a very short space of time all the rivers of this country would dry up?"

"I would say," replied the patient man, "Go thou and do likewise."—Boston Christian Register.

Fatal to Dolls.

Auntie—Where is that pretty doll you had when I was here last?

Little Girl—It's gone—died of the grip.

"The grip, eh?"

"Yes'm; baby's grip."

Perhaps It Was.

Mrs. Richmond—What lovely antique furniture!

Mrs. Bronxborough—Yes, and, do you know, we got it almost as cheap as if it had been new!—Judge.

The Shoeman's Clerk.

"I never," said the illiterate shoe clerk, "forget a man's face that I have fitted shoes on."—Los Angeles Herald.

Color and Disease.

Every one would agree that color has an extraordinary effect on one's spirits, and scarlet or reds of any kind are distinctly exhilarating. But what is the power of color over disease? The idea that the power exists is not a new one—indeed nobody knows how old it is—but when Edward II. (then Prince Edward) was smitten with smallpox his doctor (Gaddesden) treated him in a way that would baffle even the Christian Scientists.

To quote his own words, from a note of Miss Strickland's in her Marguerite of France memoir, "I ordered the prince to be enveloped in scarlet cloth and that his bed and all the furniture of his chamber should be of bright red color, which practice not alone cured him, but prevented his being marked." The old chronicle goes on to say that he "treated the sons of the noblest houses in England on the red system and made good cures in all."

"In this childish state," Miss Strickland quaintly remarks, "was the noble art of healing at the court of Marguerite." What would her comments be if she lived in this twentieth century?—Philadelphia Ledger.

Coronation Blunders.

There were all sorts of blunders made at Queen Victoria's coronation, and the queen never knew what she was to do next. They made her leave her chair and enter St. Edward's chapel before the prayer was concluded, much to the discomfort of the archbishop.

The ruby coronation ring, according to the rubric, should go on the fourth finger. In this case the ring had been made for the little finger, which the queen accordingly held out when the proper time came. The archbishop refused to put it on that finger and said it must go on the fourth. The queen remonstrated, declaring that she could not get it on, but the archbishop insisted that it had to go. Accordingly the other rings were taken off, and the new one was forced on with such pain that as soon as the ceremony was over the queen had to bathe her finger in ice water to get it off.—Saturday Evening Post.

Small Fish.

An Englishman walking through a certain part of Scotland with rod and reel came upon a tiny loch which he thought held out promise of good sport. Patiently he fished for three hours, moving steadily from spot to spot along the borders of the little pond, but no success came to him.

At last he accosted a boy who had stood for ten minutes watching him with mingled surprise and curiosity on his face. "My little lad," said the Englishman, "can you tell me whether there are any fish in this pond?"

"If there be any, they must be vera wee ones, sir," returned the boy, "for there was nae water here until it rained yesterday!"

A Business Man's Nerve.

The successful merchant nowadays knows how to turn even misfortune into advertising. A team of coach horses dashed into an immense plate glass window in front of a big furniture store in New York city and made a general smashup of everything in sight. The proprietor, instead of shutting up shop even temporarily, sat down and with a paint brush elaborated the following on a big white board and installed it in the window where the plate glass was: "A coach team smashed this window. You see, even the horses know where to find good furniture. This is a pointer for you."

How the Natives Treat Gorillas.

Natives in the countries inhabited by great apes regard them always as human beings of inferior types, and it is for this reason that for a long time it was found impossible to get hold of an entire gorilla skin because the savages considered it religiously necessary to cut off the hands and feet of the animals when they killed them, just as they do with their enemies, possibly for the purpose of rendering them harmless in case they should by any chance come to life again.

Salad Plants.

The salad plants contain no appreciable amount of nutrient and are not esteemed for this reason by those who recognize their value and deem their crispness and cooling properties an indispensable part of the ideal dinner. The nature of their component parts, along with the oil, acids and condiments used to dress them, makes them most useful aids to the digestion.

The First Glass Window.

The first glass window in England was put up in an abbey about the year 680. Glass windows, however, did not become general for many hundred years, and as late as 1579 the glass casements at Alnwick castle, the Duke of Northumberland's seat, were regularly taken down when the family was away from home.—Notes and Queries.

We are Expanding Daily in our Business.

This week will see us put in a lot of new shelving. The demand for our low-priced Household Goods is increasing and we are obliged to enlarge this department.

OUR

Dry Goods Department.

Was taken by surprise the last four days of our sale. The crowd was almost too big to be done justice to. This will be avoided the next time in some ingenious way.

OUR

Grocery Department,

Has seen busy days the past four weeks and we proudly anticipate a remarkable summer trade.

NOW That the hot days are coming the great cooling facilities of our excellent refrigerator will bring our **MEAT MARKET** to the front, and the freshness of our meats, fish and poultry will be appreciated by our liberal patrons.

LOUIS TACHE SELLS OUT.

J. A. McMannis, of Crookston, Buys the Saloon Property on the Corner of Laurel and Sixth Streets.

A deal was closed yesterday afternoon whereby the saloon property owned by Louis Tache on the corner of Sixth and Laurel street passed into the hands of a new owner. J. A. McMannis, of Crookston, is the man who bought the place out and he took possession at 12 o'clock last night.

Mr. McMannis was formerly proprietor of the Commercial hotel at Crookston and has been a popular business man of that city for many years. He is not without friends in this city, as from time to time those who have visited Crookston have had the opportunity of meeting him and partaking of his hospitality.

Mr. Tache has not decided what business he will engage in in the future.

WOULD REPAIR THE BUILDING ANYWAY

J. F. McGinnis Puts Men to Work On Building Which was Partially Burned.

WILL TEST THE ORDINANCE.

Chief Nelson Arrests the Men and They are Brought Before Judge Blewitt.

A little seance occurred this morning which will, in all probability, result in endless litigation, and which will determine one way or another the status of the proceedings taken sometime ago by J. F. McGinnis to secure a permit to repair the old building on Seventh street that was destroyed to some extent by fire a few weeks ago.

This morning a surprise was sprung when Contractor Anton Isaacson with four other men were seen at work on the building, which they said they had received instructions to go ahead and fix up. Chief Nelson was at once notified and the matter having been brought up at the meeting of the city council and many of the members of that body having expressed their opinions on the matter, he knew exactly what was to be done. He went over and notified the men to stop work. They went to Attorneys Polk & Polk, who are looking after the interests of J. F. McGinnis, and asked what they had better do. From the law firm they received instructions to go back to work until stopped by other and more stringent means. Chief Nelson then placed them under arrest and they were taken before Judge Blewitt to answer to the charge of unlawfully repairing a frame building within the fire limits, not having obtained a permit. The hearing on the matter was adjourned to Friday morning at 10 o'clock. The men's names are: John Westlund, Matt Carlson, Matt Lea, John Mattson and

Anton Isaacson. They plead not guilty to the charge.

It seems that Polk & Polk, representing J. F. McGinnis, intend to make a test case of this one. The arrest of course was made under Ordinance 71 relating to the establishment of fire limits and regulating the construction and removal of buildings and carrying on of business therein. It will be remembered that Mr. McGinnis appeared before the council sometime ago and asked for a permit to repair the building then occupied by William Costello as a saloon. It was claimed at the time that the building in question was not a part of the other two that burned alongside of it. The loss to the south end of the old frame structure was total but the building in which the saloon was located was damaged very little. It seems that the permit was asked in view of the following taken from Section 4 of the ordinance "But no wooden building shall be moved from within said limits to any place within the limits which may be damaged to the extent of more than fifty per cent of its value, such damage to be estimated by the city council."

There is a great kick on the proposition and should it be allowed to go through there will be a great roar from the property holders. It is understood that M. J. Reilly, J. W. Koop and F. H. Gruenhagen strenuously object to such a thing being done.

MUSIC AND DRAMA.

THE ELLIS-LENNON COMPANY.

Last night there was a very good audience out to greet the Ellis-Lennon Company in their second appearance at the Brainerd Opera House, when they presented "Brother and Sister," a rather interesting melodrama. Billy Devere carried the leading role last night in a very acceptable manner, with Thos. Lennon as a close second. The company seemed to please the audience from the start and it was with an excellent performance. Tonight the company presents the military drama, "On the Potomac."

The specialties by the Bragdon children were par excellence. The youngsters gave female impersonations to the delight of the entire audience.

Four cash prizes were given away last night again and H. Williams won the \$2.50 prize, Nels Nelson the \$1.75 prize, A. L. Smith the \$1.25 prize and A. R. Lindberg the 75 cent prize.

KATRINE.

Calvin Care, who has been away for some time has returned.

Mrs. O. C. Coffin, of Deerwood attended the memorial exercises at Bay Lake.

Mrs. Pringle, of Cutler, a daughter of I. D. Care attended the memorial exercises Friday.

Miss Marion Phelps is keeping the books, and helping to attend to the customers at Mr. Miller's store.

The mill presents a busy scene this week, and the road is lined with lumber, belonging to the settlers.

Mr. Artie Kneiff having finished his term of school is now a horticulturist. He is looking after his uncle's orchard (Mr. Wasserzieher) while he is away receiving medical treatment.

Bay Lake is having many visitors these days, many tourists from Deerwood coming out for a drive, and a fish. There was a time when it was hard to find a team in Deerwood for such purposes, now there are several engaged in the business. Mr. Leckliter keeps two fine turnouts, and "Dad" knows just where every fish lives and when they will be at home.

Friday was an ideal day for the memorial exercises at Bay Lake. The attendance was good; selections by Miss Curry for her pupils were appropriate for the occasion, and the children performed their parts with a spirit suitable to the day. After the exercises they repaired to the cemetery, and bestowed their floral offerings. Five of the old boys in grey, i. e. (grey hair), lined up at the exercises. Two of their comrades in their tents of green, are sleeping in that silent camp-ground, where rattling drums and clarion bugles, no more alarm them.

Rest in peace, the flag still waves,
And seventy million guard your graves.

ESDON ETCHINGS.

We understand Miss Seryle will not leave for her home for a couple of weeks.

We understand there are four families quarantined at Graves lake with diphtheria.

That trial brought before our town justice about the old road, did it evaporate like the dew or what.

There was no school Decoration day, although very few attended the exercises either at Bay Lake or Brainerd.

Several from this neighborhood attended Carl Wilson's birthday party the 31st. Every one reports a good time.

Miss Dottie Sorenson made a visit at J. L. Hammett's, spending Saturday and Sunday with Miss Nora Hammett.

It is reported that Mr. Tenberg lost a child and that it was buried Friday. We have heard no further particulars.

Irving Christler was a visitor in Esdon the other day. He was carrying his hand in a sling. He cut it quite badly with the axe when making fence.

L. C. Hammett meets with lots of mishaps when he takes the "school marm's" out. Last week he took a header from the buggy as he took them to Deerwood, and this week a thorough wetting in the heavy shower Sunday night as he returned from taking those teachers to their respective schools.

A REIGN OF TERROR

GENERAL UPRISING OF YAQUI
IN STATE OF SONORA,
MEXICO.

PEOPLE SEEK PROTECTION

Refugees Pouring Into the Towns—All
Able Bodied Men Compelled to Serve
in the Army—Indians Concentrating
in the Hills and Committing Many
Murders—Reinforcements Hurrying
to the Front.

El Paso, Tex., June 4.—A private letter received here from a reliable source at Hermosillo, Mex., states that a general uprising of the Yaqui Indians in the central and southern portions of Sonora has taken place and a reign of terror exists even at the capital, for it is feared that the Indians will attack the town. Refugees from the ranches, with their wives and children, are pouring into Hermosillo seeking protection. A conscript law has recently been passed and as fast as able bodied men arrive at the capital they are conscripted to serve in the army. Indians are rising in large numbers and concentrating among the hills. Many murders have been reported. The recent reconcentration order has had a bad effect on the Indians. They regard the system as virtual slavery. The Indians are bolder than they have been since the outbreak three years ago and seem to be operating in greater numbers. Armed bands are scouring the country, but the main stronghold is in the almost inaccessible hills. Reinforcements of regulars are being hurried to the front.

Over Twenty Were Killed.

Tucson, Ariz., June 4.—Advices from Torres state that in the fighting Saturday between the Mexican soldiers under Governor Izabel and the Yaquis on the Sonora river eighteen Yaquis and three Mexicans were killed. There were 400 Indians. General Torres has taken the field with the Twentieth regiment and a detachment of cavalry.

REBELLION IS CHECKED.

Government Troops Victorious in Kwangsi and Chili Provinces.

Victoria, B. C., June 4.—Late advices brought by the steamer Empress of Japan are that the capture of the rebel leader, Nung Yung Sung, has given a check to the Kwangsi rebellion and the troops sent to the relief of Nan Ning met with very little opposition. Steamers are now running to Nan Ning and the forts of that town are being strengthened under the supervision of an American sergeant and the missionaries. France is trying her best to take a hand in the suppression of the rebellion and went so far as to send troops across the border from Tong King. They were ordered back by the viceroy. A later dispatch from North China says that the riot in Chili province has been entirely quelled by the government troops after two days' fighting. The chief of the rebels has also been caught and about 1,300 of his followers have been killed or wounded.

MUST RETIRE TO HIS FARM.

Said That Kruger Will Be Allowed to Return to South Africa.

London, June 4.—Cabling from Amsterdam, the correspondent of the Daily Mail says that Sir W. Conyngham Greene, the British minister at Bern, Switzerland, who was formerly British agent at Pretoria, together with Lord Reay, from London, has arrived there and conferred at length with Dr. Kruger, the Dutch premier.

It is rumored, continues the correspondent, that Sir W. Conyngham Greene and Lord Reay purpose accompanying Dr. Kruger to notify Mr. Kruger of the conditions of peace and to offer him a safe conduct to South Africa and other facilities, conditional upon his retirement to his farm at Rustenberg.

Dr. Kruger's good offices in this matter were requested by Great Britain.

INDICTED BY GRAND JURY.

Coal Company Held Responsible for Fraterville Disaster.

Knoxville, Tenn., June 4.—The Anderson county (Tenn.) grand jury, sitting at Clinton, has returned indictments against Major E. C. Camp, George M. Camp and the Coal Creek Coal company for criminal misdemeanor. The indictments result from the recent Fraterville mine disaster in which 216 lives were lost, the specifications being that defendants did not fulfill the law in regard to daily inspection of the mine, in the freedom of the mine from gases and in other particulars.

Chinese Enjoy the Fires.

Peking, June 4.—Fires occurred at the French barracks and at the quarters of the Austrian troops. Although the fires were large the resulting damage was small. The fires are believed to have been of incendiary origin. When the buildings burned there was much excitement and rejoicing among the crowds of Chinese who had congregated outside the legation quarter of Peking to enjoy the sight of the flames.

Has Not Recognized Cuba.

Berlin, June 4.—The German government has taken no steps to recognize the Cuban republic. The official explanation of this fact is that as yet the government has not been notified of a change in the political status of the island, the affairs of which, in theory, are wholly within the military jurisdiction of the United States.

IS Old in Crime, Though.

Des Moines, June 4.—Soapy Bradford, a mere boy, but an old offender, has been sentenced to twenty years' imprisonment for highway robbery. He participated in a holdup in which \$4 was obtained.

MICHIGAN'S MILITIA SCANDAL.

Ex-Quartermaster General Gives a History of Clothing Frauds.

Lansing, Mich., June 4.—William L. White, ex-quartermaster general of the Michigan national guard, in his testimony before the supreme court in the disbarment proceedings against Attorney E. S. Roos of Kalamazoo, told for the first time the full story of the state military clothing frauds and declared that Colonel Eli R. Sutton of Detroit, who was acquitted of complicity in them by a jury, was a party to the fraud and received his share of the profits.

In 1899 a quantity of military clothing that the state held under the Spanish war fund act was sold to the "Illinois Supply company" by the state military board for \$10,500, and then the same clothing subsequently was repurchased by the board for the use of the national guard for more than \$50,000.

White testified that the fictitious "Illinois Supply company" was composed of himself, Eli R. Sutton of Detroit, General Arthur F. Marshall of Allegan, inspector general of the Michigan national guard and a member of the military board, and the Henderson-Ames company of Kalamazoo.

POSTAL CURRENCY.

Special Committee Has Drafted a Bill for Its Establishment.

Washington, June 4.—An administration bill for the establishment of a postal currency has been drafted by the committee appointed to consider the question. It authorizes the postmaster general to cause to be issued postal checks of fixed denominations, not above \$1, in even multiples of 5 and 10 cents. These are to be redeemable or payable at any money order postoffice. A fee in addition to the face value will be charged for every check issued. These postal checks will not be negotiable nor payable after the expiration of three calendar months from the last day of the month which may be written or stamped thereon, but a duplicate may be issued at any time thereafter by the post-office department without charge. Duplicates will be similarly valid for three months. After the postal check is once paid the United States shall not be liable for any further claim for its payment. Postal checks will be sold wherever the regular stamps are sold.

AGAINST COERCION.

Big Meeting of Irish-Americans at the Chicago Auditorium.

Chicago, June 4.—The meeting of the Irish-Americans of Chicago at the Auditorium to protest against the coercion laws in force in nine counties of Ireland was perhaps the largest demonstration of its kind ever held in this city. Bourke Cockran was the principal speaker and when he began his address about 8,000 persons joined in the applause that greeted him. Crowds thronged the avenues outside, disappointed at being unable to gain admission. Special importance was attached to Mr. Cockran's announcement, as he has only recently returned from London, where he conferred with John Redmond and other leaders of the Irish movement.

ANTI-ANARCHY BILL.

House Considering a Substitute for the Senate Measure.

Washington, June 4.—The house has begun consideration of the anti-anarchy bill. The house committee reported a substitute for the senate measure. Mr. Ray (N. Y.), chairman of the judiciary committee, who was in charge of the bill, argued that the senate bill was unconstitutional. Mr. Latham (Tex.) supported the feature of the bill to exclude anarchists, but opposed that making it a particular offense to kill the president or anyone in the line of the presidential succession. He argued that every man was equal before the law and that existing laws were ample to punish the killing or attempted killing of the president.

OREGON'S ELECTION.

Official Count Needed on Governor. All the Rest Republican.

Portland, Ore., June 4.—Practically complete returns from 28 out of the 33 counties in the state and estimated majorities in the five remaining give Chamberlain, Dem., 258 majority for governor. It now appears that it will require complete returns to decide the governorship and the result may not be known for several days. The entire Republican ticket, with the exception of the governor, is elected by from 7,000 to 12,000.

The legislature will probably stand as follows: Senate, Republicans 40, Democrats 10; house, Republicans 20, Democrats 20; Republican majority on joint ballot, 30.

Pierces the Thickest Armor Plate.

Berlin, June 4.—According to the Boersen Courier, Herr Krupp has brought to perfection a gun the projectile from which is capable of penetrating the best and thickest armor plate he manufactures. Emperor William has already witnessed trials of this gun and has exacted a promise from Herr Krupp to reserve it exclusively for the use of the German navy.

Husband Will Be Held for Murder.

Kansas City, June 4.—Mrs. James McMillan died during the day from injuries inflicted two months ago by her husband, who, while drunk, struck her with a chair. Mrs. McMillan was unconscious for three weeks. When she recovered consciousness she was unable to speak, her vocal chords having become paralyzed. McMillan will be held for murder.

Seminole Elect a New Chief.

Wewoka, I. T., June 4.—Halsutta Mico, a full blood, was elected chief of the Seminole Indians, defeating John F. Brown, a half blood, who is just completing his fourth term. Brown is one of the most influential chiefs in the territory, and his defeat will, it is believed, have a tendency to hasten the dissolution of tribal government.

To Succeed Martinelli.

London, June 4.—A dispatch to the Central News from Rome says that Mr. Falconio, the papal delegate in Canada, has been definitely selected to succeed Cardinal Martinelli as papal delegate in the United States.

CONFER WITH KRUGER.

Boer Delegates in Europe Hold Meetings at Utrecht.

Utrecht, Holland, June 4.—The Boer delegates in Europe arrived here during the afternoon. They held a prolonged conference in the house of Mr. Kruger and afterwards another meeting was held in the Hotel des Pays Bas. None of the delegates were willing to talk with regard to the conclusion of peace or of what had been done at the day's meetings. Dr. Leyds and Mr. Fischer will remain here. Mr. Wessels and Mr. Wolmarans have proceeded for The Hague.

The Handelsblad declares that neither Mr. Kruger nor any of the Boer delegates in Europe has received any communication from the Boers in South Africa concerning peace. "The inference is," says the paper, "that the British government is stopping such dispatches."

STRUCK BY LIGHTNING.

Fifteen Hundred Kegs of Powder Blown Up at Wilkesbarre, Pa.

Wilkesbarre, Pa., June 4.—Fifteen hundred kegs of powder blew up at the Oliver powder works, located on the mountain south of here, during a thunder storm. No one was injured. Because of the coal miners' strike and the consequent lack of demand for powder, the works have been closed and no one was about the place except Superintendent William MacDonald. The powder was stored in two small buildings, which were situated close to a group of other small structures. The superintendent said he was standing near the buildings when a blinding bolt of lightning struck one of the buildings and both of them were wiped out of existence. The loss is estimated at \$7,000.

Charged With Murdering His Squaw.

Prairie du Chien, Wis., June 4.—Jim Brown, a Sioux Indian of De Soto, is a jail charged with murdering his squaw. The woman died during the day from the result of a beating administered by Brown last Friday. Brown is sixty-five years old.

Truelsen Appeals His Case.

Duluth, June 4.—Henry Truelsen, Dem., who was defeated by T. W. Hugo, Rep., for mayor of Duluth at the spring election, has filed papers in an appeal to the supreme court from the decision of the district tribunal, wherein Hugo was declared successful.

Kitchener Visits Vereeniging.

Pretoria, June 4.—Lord Kitchener, accompanied by his brother, General Kitchener, visited the camp at Vereeniging and greeted the delegates to the Boer conference there. He also expressed his hope that in the future Boer and Briton would live in amity.

TELEGRAPHIC BREVITIES.

William H. Taft, civil governor of the Philippine islands, will be received by the pope Thursday morning. The Cuban senate has confirmed the appointment of Gonales de Quesada as Cuban minister to the United States. M. Santos-Dumont has abandoned his aeronautical experiments in England and will sail for New York in three weeks. The Western Labor union convention at Denver has adopted a resolution fully endorsing the Socialist party platform and urging the members of the organization to support that party.

The Seal and the Bear.

The seal does not stop his search for food until he has completely satisfied his excellent appetite; then he takes a good nap, lying upon the very edge of the ice or as close as possible to his breathing hole. The slightest sound will awaken him and, without waiting to find out the source or direction, he rolls into the water. He can stay under for only thirty-five minutes, but where he will come up none can tell. This no one knows better than the bear, and if the bear realizes that it is impossible to steal up on the leeward side of the seal, having his black nose covered with his paw and his bloodshot eyes closed, when the seal has his open and on the watch, he looks about for a favorable point of departure, dives under the ice, and if he rightly judges the distance and direction he comes up at the very spot where the seal has expected to go down. The seal's fate is thus settled, and the bear's shrewdness earns its reward.—St. Nicholas.

The One That Chose to Pay.

Three men had been out on a spree, and on the way home late at night they made a wager that the one who did not do as his wife told him should pay for a champagne supper the following night.

The first one returned home, and his wife greeted him thus:

"Hello, you beauty! That's right, knock all the ornaments off the mantel-piece!"

He knocked them all off.

The second returned and on going into his house fell against the piano, whereupon his wife said:

"Go on; get a chopper and smash it up!"

He did so.

The third returned, and on going up stairs his wife said:

"You miserable scamp, fall down stairs and break your neck!"

Needless to say, he paid for the supper.—London Spare Moments.

The Old Man's Ruse.

"My father is real rude to the young men who call on me," confided Miss Keedick to Miss Tenspot. "I don't suppose your papa tries to drive young men away."

"My papa isn't rude, but he's real mean to the young men," confessed Miss Tenspot. "He borrows money of them."—Detroit Free Press.

POISONS OF THE BLOOD

Must Be Treated Internally Only

You may have just recently contracted Blood Poison, or its lingering taint you may have had for years. It is safe to say that you are not cured. You know that you are not.
